

Product no **YH-80011**

Anti-S•tag Rabbit Polyclonal Antibody

Product information

Target description	S•Tag sequence is a novel fusion peptide tag for recombinant proteins that allows detection by a rapid, sensitive homogeneous assay or by colorimetric detection in Western blots. Proteins can also be rapidly purified from crude extracts using a one step affinity separation method.
Antigen	This polyclonal antibody was raised by immunizing rabbit with the peptide of epitope "CKETAAAKFERQHMS" conjugated to carrier protein.
Application	Western Blot analysis (WB): 1,000 ~ 9,000 dilution ELISA: 2,000 ~ 20,000 dilution IP: 500 ~ 1,000 dilution
Form	Protein A affinity purified antibodies (containing 50% glycerol)
Storage	Aliquot and store at -20°C for long term storage. The product is stable for one year from the date of shipment.
Package	100ug/per tube Con. 1mg/mL

Loading : 0.05ug S•Tag fusion protein (22kDa)

Lane 1 : 1,000x dilution

Lane 2 : 5,000x dilution

Lane 3 : 25,000x dilution
