

Product no **YH-80001**

## Anti-GST Mouse Monoclonal Antibody

### Product information

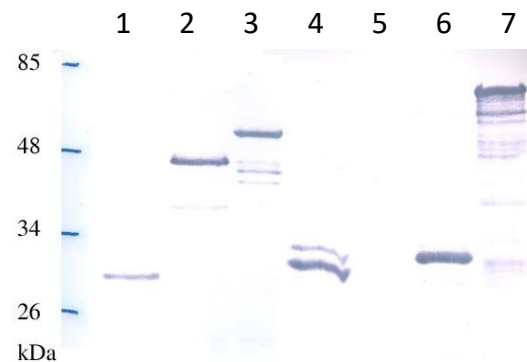

<b>Background</b>	Glutathione S transferases (GSTs) are a family of enzymes. GST play an important role in detoxification by catalyzing the conjugation of many hydrophobic and electrophilic compounds with reduced glutathione. The amino acid sequence GST is highly conserved in most organisms, including mammals.
<b>Origin</b>	Mouse monoclonal antibody raised against Glutathione-S-Transferase (GST).
<b>Application</b>	Western Blotting: 1:1,000 - 1:10,000
<b>Form</b>	Liquid (containing 50% glycerol)
<b>Storage</b>	Store this product at -20°C. The product is stable for one year from the date of shipment.
<b>Package</b>	100ug/per tube Con. 1mg/mL

**Mouse Anti GST monoclonal  
Clone(D1) 1000X**

Lane 1.2.3.4.6.7 : Bacteria expressed GST fusion protein

Lane 5 : Bacteria expressed pET32 fusion protein

**Mouse Anti GST monoclonal  
Clone(D2) 1000X**

Lane 1.2.3.4.6.7 : Bacteria expressed GST fusion protein

Lane 5 : Bacteria expressed pET32 fusion protein
